

Parish Look-Up Form Request

We understand that many North Americans who have Swedish heritage don't know where in Sweden their Swedish ancestor came from. This mystery needs to be solved before one can jump the pond and use the Swedish resources.

We will try to locate the parish for you or else advise you that we have not been successful in the search. In order to do the search, we will need some information. Fill out the following form with as much information that you have about your ancestor.

Please answer the following questions and return the document as an attached file in an e-mail to kathy.meade@arkivdigital.com

- Which person are you trying to find? Give all names the person was known by.
- When was this person born? Please provide the exact birth date if you have it.
- When looking for ancestors to someone who emigrated from Sweden to North America, if possible tell us which year the emigration took place? Where did the person emigrate to?
- Do you know the names of siblings and/or parents? If so, list the names here.
- Do you have any additional information about the person you are looking for (for example the name of a farm where they lived or some other place that you have heard your ancestors talk about)?
